1982 Greenwood Roundup

This year Greenwood School experienced rapid growth, as did other schools in the Permian Basin. Every nook and cranny in the School building was used as classroom space. The cafeteria was filled to capacity during every lunch period. Every week brought new students to the school, from virtually every state in the country.

In the fall of 1981, a bond issue was passed by the voters in Greenwood Independent School District. A new secondary school is to be built and the elementary building is to be enlarged. Also in the building plans are a bus barn and an administration building.

Until these new facilities are completed, the feelings of teachers and students alike are illustrated in the face of the fellow to the left.

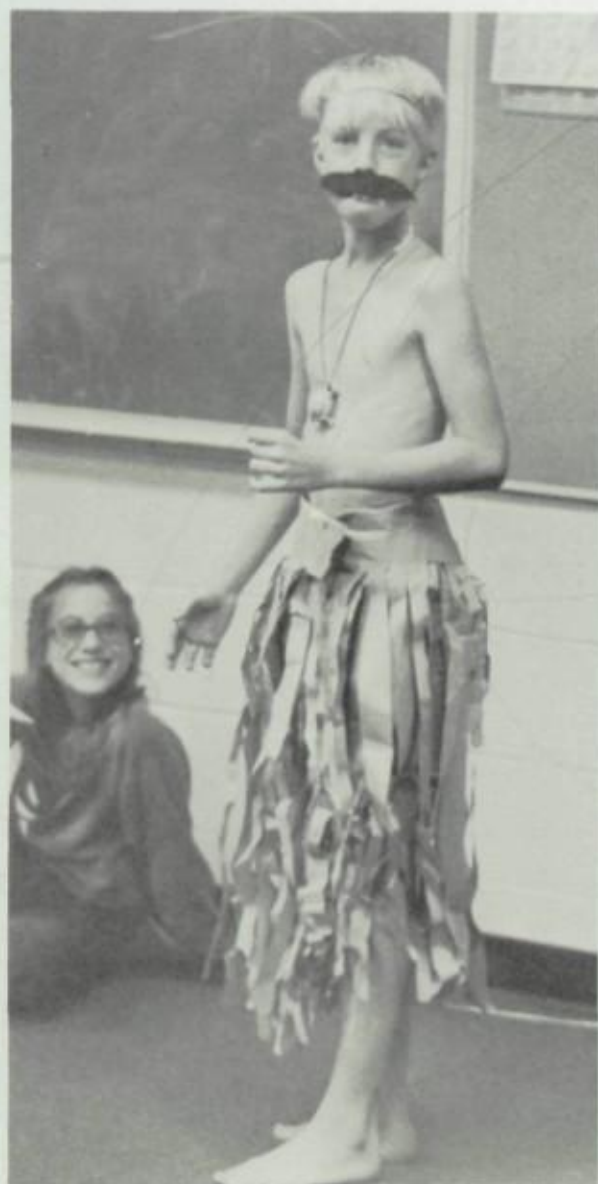

This is "Wild Willie," the annual staff's 1982 Ranger mascot. Willie will be introducing each of the sections in this yearbook.

Seniors ...

... are always anxious for English class to begin. Todd really looks anxious. Perhaps Tricia and Carla enjoy craft class more. Richard does his creating in journalism.

Actually, seniors usually pour more energy into their non-classroom activities. Homer and Karen mosey around the floor at the Homecoming Dance. Lisa moseys around the end for a senior gain at the fall powder puff game. Kit, the ref. says, "Did you really think that was legal?"

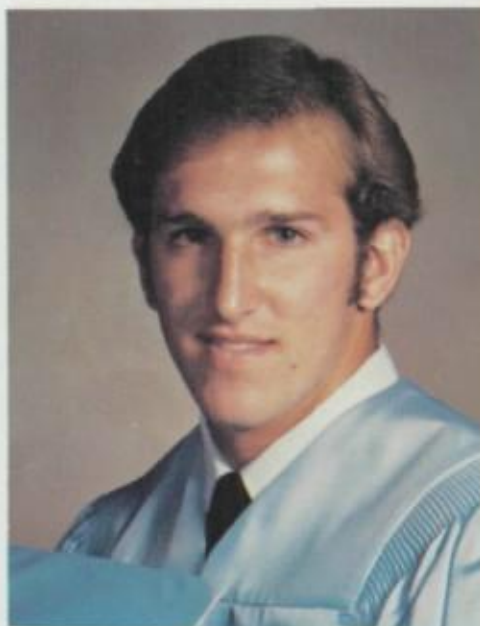

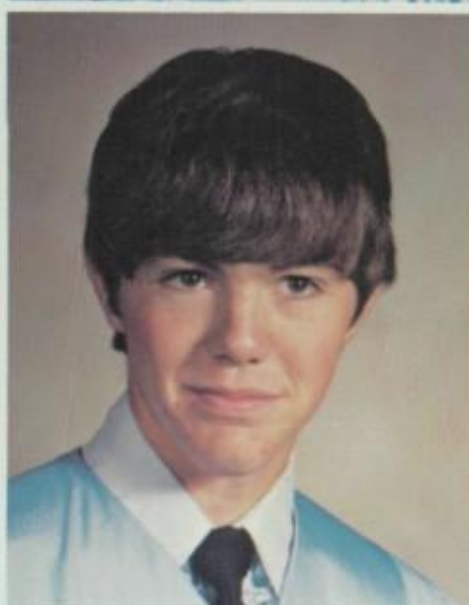

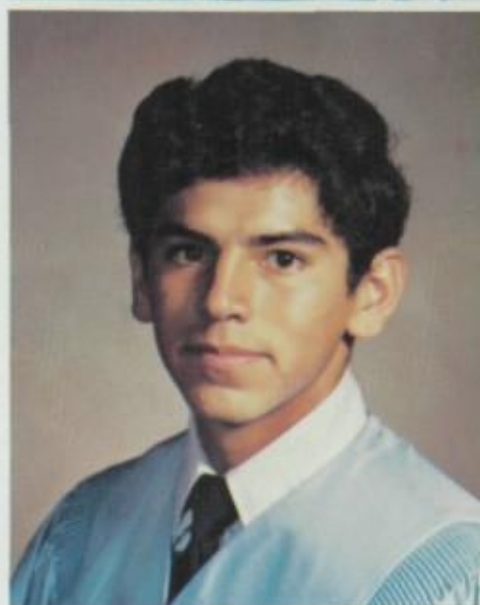

Larry and Roy serve up the food at the Booster Club kick-off supper while Tedo struts his stuff.

Like all seniors who work part time, Glen and Syliva happily head for home at 12:30.

Season Record 33-3

The Rangers enjoyed an excellent season under the superb leadership of new coach, Herschel Burleson. They advanced steadily through the season, although they were challenged strongly by Rankin in district play.

At left, the team is shown with the bi-district trophy after defeating Robert Lee, 56-32.

The Rangers had to get by Wellman, Jayton, and Nazareth to represent Region I in Austin. At the State tournament, the Rangers defeat Petty-West Lamar, 57-56. In the championship game, Greenwood was defeated by Snook, 52-45.

Taking a strong financial stand in Midland.

On July 3rd, 1903, Midland National opened its doors in the old Llano Hotel, on the northwest corner of Wall and Main.

We were just starting out, but we already had an unwavering commitment to sound, healthy growth. And we were eager to lead the way, searching for new territory to explore.

For thirty years, we kept pace with Midland's ranching, agricultural and mercantile interests; as they grew, so did we.

With the discovery of oil here, our pace quickened. We took strides to introduce new banking services. We were the first bank in the Permian Basin to add a petroleum engineer to our staff.

Today, our Oil and Gas Division is staffed entirely by petroleum bankers who are also petroleum engineers; bankers who personally analyze collateral, using our in-house computer and the latest petroleum evaluation techniques.

Our Commercial Loan Officers are highly trained professionals who can give quick answers on short-term working capital loans, lines of credit or term loans for a growing business.

Our Trust Department specializes in personal trusts and estate planning and also in setting up corporate profit sharing and pension plans.

Today, Midland has come of age, and so have we. We have \$11 billion in assets behind us. And ahead of us is a future dedicated to helping Midland reach her full potential.

Whatever your financial needs, bring them to Midland National. Contact us at [915] 685-5000.

Grow stronger with us.

**You've got a bright future.
We'll do our part to help keep it that way.**

Your generation will need as much electricity as is being used these days. Maybe more. We at Texas Electric are working to provide you with the electricity you'll need for college, your homes and your jobs.

In the past, we've used mostly natural gas and oil to make electricity. Today, we're making almost half of our electricity in plants built to use lignite coal. And, we're building a plant to make electricity using uranium fuel. By using these cheaper and more abundant fuels, we'll help keep your future looking bright.
